Why use GCSEPod?

gcsepod
education on demand

What is it?

- Professionally produced, audio-visual content and assessments across 27 subjects

- Content is mapped to exam boards and filtered to ensure relevant knowledge is delivered to students

- Pods are written and produced in a concise, short format whilst covering all knowledge needed for exam success

- Can be used for in-class teaching, independent learning and consolidation, homework and revision

- Accessible via mobile, PC or laptop and via the website or Apple and Android apps.

- Pre-made playlists and assignments, reporting functionality and tools to help identify knowledge gaps, such as Paper to Pod Guides and Check and Challenge.

Why use GCSEPod?

- Reduce workload by using pre-written questions and assignments
- Set, mark and monitor homework with ease
- Improve confidence, motivation and behaviour
- Support interventions and identify knowledge gaps to accelerate progress

It's convenient and effective

At the heart of GCSEPod is our videos. We call them 'Pods'. Each Pod is a highly concentrated 3-5 minute burst of audio-visual learning, specialist subject knowledge for 27 curriculum areas. The Pods are **written by subject experts** then rigorously quality assured.

Narrated by professional voice-over artists with visuals produced by our award-winning in-house design team, **every Pod is mapped to GCSE and IGCSE exam boards** and we are fully **committed to keeping up with curriculum** and technology changes.

Pods can be easily incorporated into teaching and learning by enriching lessons, consolidating knowledge and engaging students.

How are students using GCSEPod?

- **71%** of GCSEPod usage is outside of school hours

- In 2018/19, over **12 million** Pods were watched. That's 48,500,000 minutes of learning!

- This is 1 million more than the 2018/19 academic year.

- The highest hour of usage was **7pm on May 14th 2019** with 19,295 Pods watched (this was the day before the AQA English Literature exam).

- The most popular day for viewing Pods was a **Wednesday!**

Quick Start Guide

How do you get it?

When your school has informed you that you have been registered with GCSEPod, you need to confirm some personal details so that you can access the site:

1) Go to www.gcsepod.com and click "Login"
2) Click "New Here? Get Started!" and select "Teacher"
3) Enter your school email address.
4) You will receive an email with a password to log into GCSEPod. You can change your password to something more memorable once logged in.

Key Features

Assignments & Question Bank

Choose from over 50,000 questions, all relevant to specific Pods, to test your students' knowledge. All multiple-choice questions are automatically marked.

Allocate them to specific groups of students or target one specific student to support. Boost Playlists automatically generate for students after they complete assignments to fill knowledge gaps.

Check & Challenge

Students can test their knowledge on Pods by completing quizzes and questions after watching and recieving instant feedback on answers.

Written by subject experts, the questions are across all levels and students have the option of a second attempt the question and access hints.

Achieve & ReadySetGo

Pass4English and Pass4Maths contain Pods targeting the 10 areas that can help students achieve a Grade 4.

ReadySetGo are pre-created assessments to check knowledge and understanding of these areas.

PDF Pass4 workbooks encourage students to quiz, practice and apply their knowledge.

Exam-Specific Playlists

'My Courses' provides exam-ready playlists, ideal for revision. Students can view a list of their upcoming exams in subject or date order. Students can view an exam playlist to see all the Pods relevant to an exam whilst highlighting the areas they find tricky.

Reporting

Monitor site usage, compare with exam results and printed related Question Level Analysis reports to keep track of student progress.

Use our 'Compare the Classroom' reporting tool to quickly generate a detailed PDF usage report in just a few clicks.

Paper to Pod Guides

Students can use our guides alongside their marked mock exam papers to identify knowledge gaps.

Accompanying a playlist, the guide specifies which Pods relate to each question, so students can focus on the areas where they've lost marks in the exam.
